Slide 1 – Cover

Title: Graduation Project Proposal
Subtitle: Hyper Market Online Ordering System
Note: Team Project

Slide 2 – Project Information

Project Title: Hyper Market Online Ordering System
Course/Track: Front End Web Development
Team Members:

- Kerollous Mamdouh (Team Leader)
- Mayer Adel
- Mayer Michel
- Ramez Basheer
- Yassa Maher
- Mostafa El-Khatib

Slide 3 – Project Objective

- Develop a complete hypermarket e-commerce platform.
- Allow customers to browse products, place orders, and track their purchases easily.
- Admin dashboard to manage products, categories, offers, and orders.

Slide 4 – Scope of Work

- Customer website for browsing products.
- Shopping cart and order management.
- Secure checkout system.
- Admin dashboard for adding/editing products.
- Managing special offers and discounts.
- Order tracking and management.
- Responsive design for mobile and desktop.

Slide 5 – Expected Outcomes

- Fully functional online ordering system.
- Improved customer shopping experience.
- Easy product and offer management for admin.
- Organized database for products and orders.
- Secure and scalable web application.

Slide 6 – Problem Statement

- Many traditional hypermarkets rely on in-store sales only.
- Customers need a convenient way to order online.
- Store management requires an efficient system to manage inventory, offers, and orders digitally.

Slide 7 – Proposed Solution

Technologies Used:

- Frontend: HTML, CSS, JavaScript
- Backend: Node.js / Express
- Database: JSON Server / MongoDB
- Local Storage for admin authentication
- Responsive UI Design
- Version Control: Git & GitHub

System Architecture:

- Client Side (User Interface)
- Admin Dashboard Panel
- Backend Server (API)
- Database for storing products, users, and orders
- RESTful API communication between frontend and backend

Slide 8 – Resources Needed

Hardware:

- Laptops/PCs for development
- Internet connection

Software:

- Visual Studio Code
- Node.js
- Web Browser
- Git & GitHub
- JSON Server / MongoDB

Slide 9 – Approval
